

Once you have downloaded the installation file, run it and follow the instructions until you reach the step below.

Net Server Client Logon Settings					
Client Information					
The Login Name, Password, and Extension, below, apply to the Toshiba Net Server Client and are not related to your computer Login Name.					
Typically, the Login Name is the name that appears on your Call Manager and the name others can see for chat sessions.					
Login Name:					
Password:					
Extension:					
Server Information Hostname:					
Use Remote Access Port Click for Details					
OK Cancel					

- 1. Your login name is the letters "u" and "c" and your extension. (ex. Your ext. is 200 your username is uc200)
- 2. Your password is your extension.
- 3. Your extension is simply your extention number.
- 4. The hostname you will need to enter is: cp1000XXX.vipedge.com. (The "XXX" represents your personal account number. If you do not know this information, contact your system administrator).
- 5. Lastly check off the use remote access port box.
- 6. Once finished typing in the information hit OK and the install process will finish.

When you first load the software you must make a new profile first. So click the "Add New" button to continue.
